That New Car Marigold Flour Came in Tuesday

Howell & Newton Incorporated

The New Head of A. & M.
Col. Milner will make good in the
management of the Agricultural and
Mechanical college. This is a bold
statement, notwithstanding it carries
with it an assumption of prophetic
vision, and does not fail in a proper
appreciation of the difficulties that
confront the newly installed president.

Col. Milner, although seriously
troubled, made good as commis-
sioner of agriculture, a makeshift of
which he dignified and made use-
ful, perhaps for the first time in the
history of the State's sporadic efforts
to throw a sop to the farmers by
maintaining a so-called department of

agriculture on high-sounding title,

absurd limitations of authority, and
meager appropriations. Having suc-
ceeded in spite of these limitations in
delivering a few preachers of value to
the farming interests of the State,
and in issuing a few bulletins replete

with information of a practical kind

to practical men who recognize the
necessity of scientific and progressive

agriculture. The Star feels safe in its
conclusion that Col. Milner will direct
the Agricultural and Mechanical
college with a clear conception of the

responsibilities of his position and of

the true mission of that great institu-

tion. But Col. Milner cannot do it all.
He must have the aid of the

State to a more generous and thought-

ful degree than any of his predeces-

sors ever had that aid. Heretofore

the lack of sufficient State appropri-

ations have dwarfed the development

of the institution and largely defeat-

ed the work it sought to accomplish

and should have accomplished. All

this has been apparent from time to

time in the physical incapacity of the

school to meet the demands of those

who desired to patronize it, in the in-

efficient and antiquated buildings in

which students who did matriculate

had to live in unsanitary condi-

tions. It is true that the

more generous treatment of

the school has been given at

the expense of the State, but the

progress of the school has been

so slow that it has not kept pace

with the growth of the State.

It is true that the

more generous

treatment of the school has been

given at the expense of the State,

but the progress of the school has

not kept pace with the growth of the

State, and the result is that the

school is still far behind in its pro-

gress, and the State is still far

behind in its educational progress.

the University of Texas, was, for the
same reason—the parsimony of the
State—finally compelled to accept a
position that has made Texas poorer
by the permanent loss of his distin-
guished and splendid services. While
the public is making demands upon
Col. Milner, as the directing force of
the Agricultural and Mechanical col-
lege, it should take into consideration
the difficulties that must oppose his
efforts, and see to it that the forth-
coming legislature arm him with the
means to build up the institution to a
consequence and usefulness in keep-
ing with agricultural and industrial
conditions and demands.

Complimentary Reception
The Alumni association of the
Texas Woman's College will give
an informal reception to the faculty
and students of the T. W. C. at
the college building on Wednesday
afternoon from 5 to 8 o'clock.

The purpose of the reception is to
provide an opportunity for the new
students and newly selected mem-
bers of the faculty of the school
and the Alumni association to be-
come acquainted with each other at
the beginning of the new year.

The ladies who will be hostesses
of this affair are: Misses Adeline
Sanders, Irma Harris, Mabel Zim-
mermann, Gertrude Eaves and Gus-
sie Buchanan.

PLUNGES TO HIS DEATH

Brains of Edward Moore Are
Dashed Out.

TWO MORE SUCCOCATED.

Three Other Guests of Belmont Hotel
at Denver Sustain Serious Injuries
During Burning of Building, Hemmed
In on All Sides by Flames.

Denver, Sept. 8.—A fire, believed
to be defective wiring, started in the
lobby of the Belmont hotel at
about 12:30 a.m. today.

It damaged about fifty-five

years, leaped from the third story.
His brains were dashed out.

George Burtell, forty years old, a
resident of Denver, was suffocated.

George Ott was seriously burned.
William Lewis sustained injuries by
jumping. Mrs. Lanham was badly
burned. All but one reside at Denver.
Half a dozen were slightly hurt.

The guests were awakened from
sleep by the cry of fire and rushed
into the halls, hemmed in by flames
from all sides, and in the effort to
escape fought and struggled, while the
rescuers were forced back by columns
of smoke and mounting flames.

It is estimated by the management
that at least 100 persons were asleep
in the building when the fire started.
All of them jumped from their beds,
dressed only in night robes.

John D. Kane, it was later ascer-
tained, had been suffocated. George
Boda of Middletown, N. Y., died in a
hospital, as did also George Ott of
Dodge City, Kan.

KATY DEPOT AT DALLAS.

Commission Lists to Represent-
atives of Road.

Austin, Sept. 8.—The railroad com-
mission met Tuesday and took up the
September docket. There was a good
attendance.

The first matter taken up was the
proposed order requiring better depot
facilities by the Missouri, Kansas and
Texas railway at Dallas. A. H. Mc-
Knight, assistant general attorney of
the road, asked that the matter be not
presented at this time; that the Katy
has hopes of soon getting into a union
depot with all the roads entering Dal-
las except the Texas and Pacific and
the Houston and Texas Central. He
said that if complaints were caused
by lack of separate waiting rooms for
whites and negroes this might be
cured.

Commissioner Colquitt said that the
principal complaint was because of
inconvenience to passengers entering
and leaving cars there.

General Superintendent McDowell of
the Katy said that all roads entering
Dallas, except the Houston and Texas
Central and the Texas and Pacific
had agreed to go into the union depot
proposition, the building to be located
near the present Santa Fe depot, and
which would involve an expenditure
of close to \$750,000. He said that
\$200,000 was now being expended by
the Katy in improving its freight yard
facilities. Mr. McKnight said that his
road did not wish to expend much
money on the depot which it soon
proposes to vacate. He said that the
Katy would submit plans for the im-
provement of the present depot for
the commission's approval.

Commissioner Storey said if repre-
sentatives of the other lines entering
Dallas proposed to go into the union
depot project he would like to hear
from them. No one spoke and the
proposition was taken under advisement.

The commission next took up the
application of the Houston, Shreveport
and Gulf railway for recognition as a
common carrier. Judge E. J. Man-
tooth advocated the proposition. The
matter was taken under advisement.

A petition for free delivery service
by the United States Express com-
pany at Jacksboro was considered and
taken under advisement.

The question of better depot facil-

We announce in advance the Opening of our new **MILLINERY and READY TO WEAR** Departments
for Women. For months we have been planning to install these two new departments in a way
which will reflect credit upon our little city as well as upon ourselves. To this end we believe
we have acquired ambition and in the very near future we will announce the Opening of the
newly constructed building which will occupy the most convenient and handsome spaces in our new building.

READY TO WEAR

THE CITY NATIONAL BANK

Solicits your Deposit and Checking Ac-
count upon the basis of Absolute Responsibility
and a Square Deal.

Our Responsibility is based upon our Cap-
ital Stock and Surplus, amounting to \$140,000
and upon the Financial Responsibility of our
Individual Share-holders.

The Promise of a Square Deal is based
upon our record of Unbroken Promises in all
things.

No account too small to receive the most
courteous attention.

COTTON GINNED.

Figures as Given Out by the National
Department of Agriculture.

Washington, Sept. 8.—Reports from
6,613 ginneries show cotton ginned
397,924 bales up to Sept. 1. This is
against 200,278 bales for the corre-
sponding date in 1907 from 4,080
active ginneries; 407,551 bales and
6,628 ginneries in 1906, and 476,655
bales and 8,629 ginneries in 1905.
These figures count round as half
bales.

The report includes 20,513 round
bales for 1908, 11,503 for 1907, 21,855
for 1906 and 22,231 for 1905.

The report also embraces 1,324 Sea-
island bales for 1908, 85 for 1907, 63
for 1906 and 1,167 for 1905.

Bryan Morning Eagle

Entered at the Postoffice in Bryan,
Texas, as second class matter.

BY CARNES & WALLACE

BRYAN, TEXAS, SEPT. 9, 1908

Some cows go dry, even in Comal county and other places where they abhor prohibition.

Marketing is the business side of farming. Marketing the cotton crop calls for the best business ability.

One of the speakers at the Beaumont Labor Day celebration took for his text: "Moses as a labor leader."

Chicago babies do not thrive on a diet of pickles, sausages and beer. Why not change it to chili con carne, enchiladas and mescal?

A chemist has discovered a substance three hundred times sweeter than sugar. But several million other fellows have made the same discovery, and every one thought he saw it first.

Mr. Bryan probably never in his life felt more elated than when he was receiving the plaudits of immense throngs of laboring men in Chicago, Monday. It was more Bryan Day than Labor Day.

Learned from the Confederates of Texas, without condemning the state for adopting books anti-Southern. The Confederacy Veterans

The notion that anybody can farm without learning how is as absurd as that any blockhead can practice law or medicine without a course of study to prepare him for it. Scientific farming is a fine art and its rewards are surer and more generous than are offered in any other vocation.

Labor Day was observed this year more generally and more enthusiastically than ever before. All the large cities and many of the smaller ones celebrated it with elaborate programs and accompanying festivities.

Through organization, labor is making its power felt in social and political affairs.

Like the patriarch Job, William J. Bryan is afflicted with boils. Imagine what patience and fortitude are required to make a speech on a hot day with a hard, painful tumor on the back of the neck. The man who can smile and be cheerful under such circumstances deserves to be president.

During McKinley's second term the numerical strength of the army was increased from about 25,000 to 60,000. Now it is said that Roosevelt will ask congress for another increase making the number 100,000. If history teaches one lesson more emphatically than any other it is that militarism is destructive of liberty.

The younger set in a Pittsburgh church planned a picnic and dance, the proceeds to be for the benefit of the church finances. The pastor secured a court injunction against holding the worldly amusements in the name of the church. But the youngsters simply announced that the money would be given to an orphan asylum and went ahead with their plan. In this instance as in all similar cases, moral suasion is better than force.

Square bales today brought 9c;
9 5-8c; \$3.12 net difference.

DISTRICT COURT.

*Second Day of The Fall-Term. Important Case on Trial.

The most important matter scheduled for adjustment before the district court at its present sitting is the case styled Bryan Press Company vs. the H. & T. C. Railway Company, set for hearing Tuesday morning. This is a suit in which \$125,000 damages are alleged to have been sustained, and for which sum recovery is prayed for from defendant and company.

Some of the best known attorneys in the state have been retained in this case and are in attendance on the court. Hon. W. B. Garrett, representing the H. & T. C. came up from Houston Monday, and Hon. O. L. Stribling, division attorney for the railroad, arrived Monday night. These gentlemen will assist Messrs. Robert Armstrong and V. B. Hudson in the defense.

The prosecution is ably represented by Messrs. Doremus & Butler of this city and Wm. Thompson of Dallas.

A large number of witnesses are in attendance, from widely separated points: one comes from Mexico, another from St. Louis, and others from Marshall, Houston and various Texas localities. This is the second trial of the case, the railroad company having won a decision in the former trial. On appeal, however, the matter was reversed and remanded.

By agreement the matter was postponed from the hour previously set until 9 o'clock this morning.

Eight divorces were granted during the day.

PROGRAM

Of T. W. C. Faculty Recital at Baptist Church Tonight.

John Newton, one
to secure for the

MARSHALL'S SIDEWALK RECORD

City Secured More for Money Than Was Originally Estimated.

Marshall, Texas, Sept. 7.—This city can boast of having as many if not more miles of sidewalk than any city within the state of Texas in the next 30 days, and already there is constructed nearly 30 miles of concrete sidewalk which is from four to six feet wide and from four to six inches thick, and all street crossing put in to connect with the sidewalks, and when the work is completed there will be in all about 36 miles of concrete walk, or about 11 miles more than was thought the \$90,000 would build when the construction was commenced. This is quite a record and doubtless one of the few instances where money went further than was originally intended, which speaks volumes for the city administration.

The Clothiers

St. Mary's Day.

Yesterday being denominated the "Virgin Mary's Day" in the church calendar, high mass was recited in St. Antonio's church at 10 a.m. Rev. Father Dessimone, celebrant. There was a large attendance at the service.

At the same hour and place occurred the funeral of young Frank Scanlato, aged 19 years, who died on the Fountain farm in Burleson county Monday afternoon. Deceased is said to have been a bright and industrious young man, who stood well in his home community. Following the funeral services at the church the remains were interred in the Catholic cemetery near this city.

Good Fishing.

Three trout weighing an average of nearly 5 pounds each is a pretty good record and not often made. Mr. J. E. Covey, however, pulled three of the speckled beauties from the sparkling waters of Fin Feather lake yesterday, whose combined weight totaled 14½ pounds.

Notice to School Patrons.

I have been appointed agent for the State School Books for Brazos county. Those who have books to exchange will find it to their interest to present them before the 14th.

Remember a book to be exchanged must be in perfect condition and is exchangeable on a book of same grade.

342 HASWELL'S BOOK STORE.

At the prayer meeting of the Christian church tonight the study of the book of Jude will be continued. Joe McGee is leader.

Miss Lucy Wilson left Sunday for Willis, where she will teach during the 1908-9 session. Miss Wilson taught at Willis last year with so much satisfaction that she was engaged for the present session.

Mr. E. A. Miller of New Uhlm, Texas, a graduate of the 1908 class at the A. & M. College is in Bryan to place his brother, Arthur, in Allen Acadamy.

Mr. J. M. Weisenger of Montgomery, Texas, arrived over the H. & T. C. to enter his son, Samuel T., and his nephew Elmer W., as students at the Allen Acadamy.

Mr. H. B. Steele of Steele's Store was in the city yesterday in consultation with Attorneys Doremus & Butler, touching the drainage district and levee work to be done over in Burleson county, which many Bryan plantation owners are interested.

News of the marriage of Miss Rosa Emden to Mr. Robert Brilling at Houston Monday night reached this city yesterday. The bride formerly resided with her parents at this place. Mr. and Mrs. Brilling will reside in Houston where Mr. Brilling is identified with the Houston National Bank.

Beginning Wednesday I will receive fresh oysters daily. Your trade solicited. C. C. Edinburg.

Allen Acadamy of this city will begin its tenth session today. Marked success has characterized this institution during the nine helpful years of its existence here, and indications point to even greater success during the year to come. A large number of students arrived yesterday and are nicely situated in the pleasant dormitories of this school.

I will be prepared to serve fresh oysters next Wednesday. C. C. Edinburg.

Mr. G. P. Bittle returned Sunday from Jewett. While in that little city Mr. Bittle called on Prof. T. S. Minter, for several years superintendent of the city schools of Bryan, who, his friends will no doubt be glad to learn is prospering in his new home. Some of the people of Leon county are growing truck and applying improved methods of culture. He is of a man residing near Jewett from four acres of land, gathering bushels of sweet potatoes.

The case of Lanning, under investigation with embezzlement, was called for trial and been brought here from Norwalk. The Representative Lanning, failure of the Ohio which he was pres-

THE BIG WIND

Of Yesterday Caused Several Hundred Dollars Damage.

A wind storm of almost cyclonic proportions struck Bryan at 4:30 yesterday afternoon coming out of the Northeast. The wind was accompanied by a driving rain, which filled the gutters and started trash to moving. At 4:35 the wind changed to the north and hail fell, but not in sufficient quantity to cause damage. At 4:37 the wind veered to the south and the hail ceased, but heavy rain fell for some minutes. The 10x30 bill board of John B. Mike at Kosh's saloon on Mosely street was blown down and fell with a crash, a number of tents on the vacant lot near the postoffice were also blown down, and the awning at Martin & Locke's put to the bad.

Considerably more damage resulted from the storm of Tuesday afternoon than was at first supposed. In addition to that mentioned, a portion of the tin roof of W. J. Coulter's store was blown off and he sustained a loss of \$100 or more on his stock by reason of the water that came in on his goods.

Two skylights in the new Hanway building were demolished by the wind, while the entire end of the one story brick on Bryan street, occupied by L. Lobello, was blown out and fell with a crash, smashing into splinters the buggy of Mr. John Ette, which was standing in the alley where the wall fell.

It is very likely that other damage was caused by the storm, and will develop later. The damage in Bryan will amount to several hundred dollars.

SECOND DAY

Of City Teachers' Institute—An Outline of the Work.

The second day of the Bryan Teachers' Institute was marked by the zeal and animation displayed by the teachers in the work before them.

Superintendent Lawson is delighted with results so far obtained and with the spirit and thoroughness apparent.

Taking up the program of the day, Miss Burts related a literary story. Miss Watkins, Miss Montgomery and Miss Burts, history stories.

Professor Bethany discussed territorial growth of the United States.

Miss Dearing gave form study lessons for second grade.

Miss Cole gave drawing lessons.

Professor Smith told how to teach Evangeline.

Miss Ada Board discussed methods of teaching arithmetic in primary grade.

Professor Kinnard led the discussion on Zilker's theories on child growth and pedagogical ideas, based on these theories.

Miss Messa Weddington led in the discussion of Comenius and his theories as applied to modern methods.

Miss Pearl Gandy gave a geography lesson, using the state of Mississippi to illustrate the methods of teaching.

Miss Cordia Fletcher gave a beautiful lesson, illustrated by picture and cards. Subject, "Kentucky."

Superintendent Lawson gave a fifty minute address on care of buildings and books, tidiness of rooms, personal neatness and preparation of the teachers, the teacher's manner, the teacher's duties, and drew a picture of two distinct types of teachers as exemplified in instructors, he had known.

County Superintendent T. W. Parker was an appreciated caller.

The teacher's are finding the foundation principles on which teaching is based, and much good will no doubt come to the schools as a result of the institute.

A GOOD RECORD.

Extension Board of Christian Church More Than Met Requirements

The extension board of the Christian church of this city had a most interesting meeting Monday afternoon, and the result of its efforts in the work assigned is most gratifying to all the members of that denomination. The board has more than met each of its quarterly apportionments for missionary purposes during the past year, and the church in other respects is in good shape financially.

The contractor who erected the new church building, recently completed, has been closed with, and the house formally turned over to the denomination.

Following the prayer meeting Wednesday night, there will be a meeting of the official board of the church, at which time the work of the building committee will be accepted and the committee discharged. The building committee is composed of Messers. J. Allen Myers, S. B. Wilson and W. T. James, with J. J. Ray secretary.
